CHAPTER _____

An act to add Chapter 15 (commencing with Section 4999) to Division 2 of the Business and Professions Code, to add Section 1348.8 to the Health and Safety Code, and to add Section 10279 to the Insurance Code, relating to health care services.

LEGISLATIVE COUNSEL'S DIGEST

AB 285, Corbett. Health care coverage: medical advice services.

Under existing law, the Knox-Keene Health Care Service Plan Act of 1975, health care service plans are regulated by the Department of Corporations. Under existing law, the willful violation of these provisions is a crime. Existing law also provides for the regulation of insurers by the Department of Insurance.

This bill would require every health care service plan, and every disability insurer that provides coverage for hospital, medical, and surgical expenses, that provides, operates, or contracts for telephone medical advice services to require that the staff employed to provide the services hold a valid license, registration, or certification, in any of specified health professions. The bill would require that a physician and surgeon be available to the telephone medical advice service on an on-call basis at all times the service is advertised to be available.

The bill would prohibit a health care service plan and certain disability insurers from operating, or contracting with an in-state or out-of-state telephone medical advice service to operate, a telephone medical advice service unless the service is registered as provided under the bill and if certain other conditions are met.

Existing law provides for the licensure, certification, or regulation of physicians and surgeons and other health care professionals by various boards under the jurisdiction of the Department of Consumer Affairs.

This bill would provide for the registration of telephone medical advice services with the department and would

authorize the Director of Consumer Affairs to set fees for this purpose. The bill would prohibit, on and after January 1, 2000, an in-state or out-of-state business entity from providing telephone medical advice services to a patient at a California address unless the person is registered with the department.

The bill would also impose various related duties upon health care service plans and disability insurers, as well as the state agencies charged with their regulation.

Because this bill would change the requirements of health care service plans, this bill would change the definition of a crime, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Chapter 15 (commencing with Section 4999) is added to Division 2 of the Business and Professions Code, to read:

CHAPTER 15. TELEPHONE MEDICAL ADVICE SERVICES

4999. (a) On and after January 1, 2000, no in-state or out-of-state business entity shall engage in the business of providing telephone medical advice services to a patient at a California address unless the business is registered with the Department of Consumer Affairs.
